INFRASTRUCTURE

MULTI-MISSION

MULTIPLE APPLICATIONS

Our RFeye ecosystem enables diverse EM capabilities. The same high performance RF Receivers (Nodes) are used across multi-function solutions for;

EMSO

Electromagnetic
Spectrum Operations

SIGINT

Signals Intelligence

DF

DF & Geolocation

ELINT

Electronic Intelligence

EWS

EW Support

RWR

Radar Warning Receivers
(passive RF augmentation)

ISR

Intelligence, Surveillance
and Reconnaissance

INTEGRATION

COMPLETE SOLUTIONS

Our class-leading systems allow you to expand your markets and widen your sensor coverage. You can also control CRFS features inside large sensor systems through APIs.

PLATFORMS

**SUB-
SYSTEMS**

**TACTICAL
& MOBILE**

SOFTWARE
